### EXPERIENCE

- **July 2022 - Present · Full-time**  
**UX designer III @ Metro AG (metro.digital)**  
**Düsseldorf, Germany**
  - Helping the credit management team create employee facing experiences to enable them support the credit based purchases within METRO stores across Europe.
- **Aug 2020 - Mar 2022 (1 year 8 months) · Full-time**  
**Product designer @ Signzy (signzy.com)**  
**Bengaluru, India**
  - Helped automate the time-consuming process of doing background checks, digital onboarding / KYC, and fraud detections for various banks and NBFCs.
  - Majorly worked to improve the product "Generic Onboarding" impacting 1M+ monthly users.
- **May 2020 - Oct 2020 (6 months) · Contract**  
**UI/UX Designer @ Uplara (uplara.com)**  
**Cupertino, California, United States (Remote)**
  - Worked to help retail businesses and online shop owners to transform their customer's experience of finding their best fit with AI-powered solutions.
  - Created custom integrations for various e-commerce platforms for retailers including Shopify, BigCommerce, Magento, and WooCommerce.
- **May 2019 - July 2019 (3 months) · Internship**  
**Product Design Intern @ Cogoport (cogoport.com)**  
**Mumbai, India**
  - Designed experience for all stakeholders involved in end-to-end transaction of a shipment where a user can register, be verified according to his persona including manufacturers, traders, freight forwarders, truckers, and CHAs.
- **May 2017 - Sep 2017 (5 months) · Internship**  
**Student Developer @ Google Summer of Code (anitaB.org)**  
**Remote**
  - Worked on an Automated Unit Testing project (project details attached) under the program hosted by Google Inc. every year to support and promote open source software contribution.
  - Contributed in writing unit tests in Java for AnitB's organisation's web portal.

### Achievements

- **Jan 2018 - Aug 2018 (~ 8 month; irregular)**  
**Design competition winner @ Topcoder.com**  
**Remote**
  - Been an active competitor in many design challenges on this crowdsourcing platform - Topcoder.com. Helped clients with their design problems through my winning submissions in the pool of some of the best designers on the platform.
- **Feb 2020 (4 days)**  
**Delegate for Harvard Project for Asia and International Relations (HPAIR)**  
**Boston, Massachusetts, United States**
  - Selected as one of the 350 delegates from all around the world to join the conversation about global and Asia-Pacific issues in the track: Science and Technology, at Harvard campus, Boston - U.S.A.

\* Did not visit due to emerging risk of Coronavirus at the time

### Education

- **May 2015 - May 2020 (5 Years)**  
**Masters in Geological Technology (M.Tech) @ Indian Institute of Technology, Roorkee**  
**Roorkee, India**
